## Important Information

Please read this manual carefully before using the software. If the software will be used by children, the manual should be read and explained to them by an adult.

Also, before using this software, please select  in the HOME Menu and carefully review content in "Health and Safety Information." It contains important information that will help you enjoy this software.

You should also thoroughly read your Operations Manual, including the "Health and Safety Information" section, before using this software.

Please note that except where otherwise stated, "Nintendo 3DS™" refers to all devices in the Nintendo 3DS family, including the New Nintendo 3DS, New Nintendo 3DS XL, Nintendo 3DS, Nintendo 3DS XL, Nintendo 2DS™, and New Nintendo 2DS XL.

### CAUTION - STYLUS USE

To avoid fatigue and discomfort

when using the stylus, do not grip it tightly or press it hard against the screen. Keep your fingers, hand, wrist, and arm relaxed. Long, steady, gentle strokes work just as well as many short, hard strokes.

### Important Information

Your Nintendo 3DS system and this software are not designed for use with any unauthorized device or unlicensed accessory. Such use may be illegal, voids any warranty, and is a breach of your obligations under the User Agreement. Further, such use may lead to injury to yourself or others and may cause performance issues and/or damage to your Nintendo 3DS system and related services. Nintendo (as well as any Nintendo licensee or distributor) is not responsible for any damage or loss caused by the use of such device or unlicensed accessory. Except as authorized, copying of any Nintendo software is illegal and is strictly prohibited by domestic and international intellectual property laws. "Back-up" or "archival" copies are not authorized.

Nintendo respects the intellectual property of others, and we ask Nintendo 3DS software Content Providers to do the same. In accordance with the Digital Millennium

Copyright Act in the US, the Electronic Commerce Directive in the EU, and other applicable law, we have adopted a policy of removing, in appropriate circumstances and at our sole discretion, any Nintendo 3DS software that appears to infringe anyone else's intellectual property. If you believe your intellectual property rights are being infringed, please visit [www.nintendo.com/ippolicy](http://www.nintendo.com/ippolicy) to view the full policy and understand your rights.

WarioWare Gold is about action. Instant action! You'll play a series of super-awesome microgames created by me and my flunkies. But mainly ME!

### Mashing stuff!

The controls are easy—it's just  and ! If you want, you can use  instead of . What do I care?!

### Ever used a steering wheel?

Hold the system tightly in both hands and tilt it left and right, like it's a steering wheel. A really boxy steering wheel! And watch out—you don't want to tilt your system the wrong way!

Be careful of your surroundings when tilting your system!

### The gyro's not working!

If the gyro movements in the game don't look quite right, don't panic! Just put the system down on a flat surface and let it rest for a little while. It'll fix itself right up.

When playing this game, you may have to move the Nintendo 3DS system around. Make sure you have enough room before playing, and hold the system firmly with both hands while playing. Do not move the system with excessive force, as this could cause injuries, damage to the product, or damage to nearby objects.

### Touch, touch, touch!

You can use your stylus thingy for these games. If you don't have one of those, then just use your fingers. Just don't press too hard when you touch the screen. OK?!

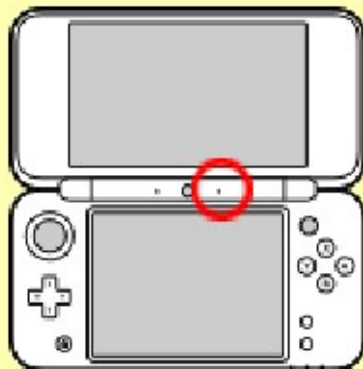

## Don't drop the mic!

You gotta blow into the mic for these games, but don't overdo it. Be firm, but gentle if you want to do it right.

Looking for the mic? These pictures should help.

## What? More controls?!

Use these touch or button controls for stuff like the menu.

Scrolling	+ / ○
Confirm	Ⓐ
Back	Ⓑ
Pause	START
Lower Screen Menu	Tap
Fast Forward	Ⓨ

### Don't I sound great?

Of course I do! That's right—this time, my entire game is voiced. That's right! It'll be like I'm talking right to you. And I hate to admit it, but if you play with the sound on, it'll be way easier to get a high score. (Especially if you're playing one of the microgames that uses sound as a key component.)

## 3

## Let's Start

When you hit the title screen, select Start, and your save data will pop up. To start fresh, you'll have to select New. Then just choose a Mii, and go have fun.

## Back for more?

If you wanna continue a game, just select your save data.

- ◆ You can change your Mii by selecting your save data, then Settings, and then Change Mii. Pretty simple, right?

## 4

## Modes and Stuff

Wanna play one of these modes? Go to the Main Menu and select it.

## Story

To complete the story of the game, start by choosing a league, and clearing all its stages. Beat the boss game to clear a stage.

**Make too many mistakes and it's GAME OVER!**

Every time you lose a microgame, you lose a life. After four mistakes, you're done! OK, not quite. If you're willing to cough up some coins, you can restart from where you left off. If you're outta cash, you gotta play the whole stage from the very beginning.

**Why replay stages?**

Once you've cleared a stage, you can play it over and over again... until you lose all your lives! It's a great way to earn some extra coins.

## Challenge

This unlocks after you beat Story mode. You'll be able to replay all your favorite microgames, but with different variations and rules, like Split Screen or All Mixed Up! Wanna challenge a friend or enemy? Then select Battle Time (page 5).

## Index

If you wanna play a microgame on repeat, this is the place to do it. After you've played a microgame in Story mode, it'll be added to the Index.

## Arcade

Use your coins for chance to win in the Arcade! You can play with your prizes in the Toy Room, obviously.

### Gimme that amiibo!

To try Wario's amiibo Sketch, go to the Misc. section in the Toy Room, and I will personally draw you a picture that matches whatever amiibo you tap. My artistic skills will bowl you over!

- ◆ You can tap up to three different amiibo every day, but each amiibo can only be tapped once a day.

**I wanna hear from you!**

If you select Studio in the Toy Room, you can add your voice to all the movies. You can save your versions to the SD card, so make sure you got plenty of free space.

## Missions

Complete any of the Missions on the list to earn a bunch of extra coins.

## Battle (Local Play)

If you have two systems, two game cards, and two players, you can battle it out by playing the same microgames at the same time.

Remember—it's gonna get faster and faster, and the first player to make four mistakes loses. If both players lose their last lives at the same time, then the battle goes into Sudden Death! The first player to lose a microgame loses the battle. Don't be a loser, be a winner!

### You'll need this stuff!

Nintendo 3DS family system x 2

WarioWare Gold Game cards x 2

## Start a battle!

If one player searches for an opponent, and the other one joins, a battle will begin!

### Find an opponent!

1. Go to Challenge and select the following— Battle Time → Find Opponent
2. Once you choose your control type and set the number of lives, the battle will begin.

### Get ready to battle!

1. Select the following— Challenge → Battle Time → Join battle
2. Choose the opponent you want to battle!

### Saving Data

Your progress will be automatically saved at certain intervals. For example, whenever you clear a stage, or get a new high score.

### Deleting Save Data

To delete your save data, go to the Save Data screen, select the data you wish to delete. Then select Settings, and press Delete.

◆ **Be careful when deleting save data. Once the data has been deleted, the process cannot be reversed.**

Data can be lost due to user action, such as repeatedly powering off and on the system or removing a Game Card or SD Card while saving. Data loss may also be caused by poor connectivity due to dirt or dust in the system's ports. Please be aware that in these cases data cannot be restored.

This software supports  . You can use compatible amiibo™ accessories by touching them to the lower screen of your New Nintendo 3DS, New Nintendo 3DS XL, or New Nintendo 2DS XL system.

Using near-field communication (NFC), amiibo can connect to compatible software to open brand-new ways to interact with your favorite Nintendo games. For more information, please visit Nintendo's official website at [www.nintendo.com/amiibo](http://www.nintendo.com/amiibo).

- ◆ Data stored on amiibo can be read by multiple compatible games.
- ◆ If the data on an amiibo is corrupted and can't be restored, open  on the HOME Menu and

then reset the data under amiibo Settings.

Using amiibo with a Nintendo 3DS, Nintendo 3DS XL, or Nintendo 2DS system requires the Nintendo 3DS NFC Reader/Writer accessory.

### Precaution about amiibo

- Just a light touch on the lower screen is enough for the system to detect your amiibo. Do not press the amiibo into the screen or forcefully drag it across the screen.

### Sending Play Data (SpotPass)

While your system is in sleep mode, it will automatically search for wireless LAN access points, connect to the Internet, and transmit your anonymized Play Data to Nintendo, whether or not the game is launched. Select SpotPass from the title screen if you wish to enable or disable this function.

- ◆ Nintendo uses the data we receive for the development of future products.

### Internet Functionality

This software allows you to connect to the Internet to send Play Data.

- ◆ The system must be configured to connect to the Internet. Refer to your Operations Manual for information about connecting your system to the Internet.

This software supports Nintendo Network.

Nintendo Network is the name of Nintendo's network service that enables users to enjoy games and other content via the Internet.

## Protecting Your Privacy

- To protect your privacy, do not give out personal information, such as last name, phone number, birth date, age, school, e-mail, or home address when communicating with others.
- Friend codes are a part of a system that allows you to play with people you know. If you exchange friend codes with strangers, there is a risk you could share information with people you do not know or exchange messages that contain offensive language. We therefore recommend that you do not give your friend codes to people you don't know.
