TWO MONTHS LATER...

It's been two months since Mega Man's battle with the FM-Ians...

Geo Stellar no longer uses a Transer, and has now upgraded to the Star Carrier, a new type of mobile terminal. Geo is excited about trying it out, and it is at that point that his cohorts in adventure—Prez, Bud, and Zack—drop in on him.

Prez tells everyone they should make a trip to see the sights and sounds of IFL Tower in Wilshire Hills. As Electopia's largest city, it is the center of all that is cool and cutting edge. The group is excited at just the thought of going there.

But while Geo and his friends are enjoying their time in Wilshire Hills, something terrible and unexpected occurs... A mysterious man appears and throws the denizens of Wilshire Hills into a panic when he unleashes a horde of Viruses!

With the help of his partner in adventure, the alien Omega-Xis, Geo Wave Changes into the hero known as Mega Man! The battle with a new, terrible enemy is about to begin!

STAR CARRIER

The Star Carrier is a new type of mobile terminal, an upgraded form of the Transer. Saying the word "Browse!" aloud will call up the Air Display screen. The Air Display can be used to introduce yourself to others, send e-mail, make a TV phone call, and manage your Battle Cards. The most advanced feature of the Star Carrier is its ability to turn invisible EM waves into visible physical objects called "Matter Waves." This feature allows people to carry around large objects like cars and motorcycles that they can use whenever and wherever they need them.

BROTHERBAND

All Star Carriers contain a BrotherBand function for forming friendships with others. Forming a BrotherBand with someone allows you to get to know them better, because you can now view their My Page and send them e-mails. You can also send them other forms of data.

LINK POWER

The bond you share with your Brothers is given a numerical value, known as Link Power. People trust others who have a high Link Power, and everybody wants to raise their own Link Power.

CHARACTERS

GEO STELAR

Geo is a kind-hearted 5th grader who loves outer space. After his father disappeared in an accident on a space station, Geo became a loner. But other kids in Echo Ridge encouraged him to open up, and now he realizes the value of friendship. He is good at fixing machines, just like his father.

OMEGA-XIS

An energy being from outer space, Omega-Xis has a strong independent streak. His favorite pastime is going "buck wild" on Viruses. He is still living with Geo.

WAVE CHANGE!!

MEGA MAN

Geo and Omega-Xis' fused EM form. Geo uses Omega-Xis' power when fighting in the Wave World.

Geo's Friends

LUNA PLATZ

Geo's class president. She's bossy, but has a good heart.

BUDEYSON

A rough, tough kid who likes to eat. Give him his favorite foods and he can do anything.

ZACK TEMPLE

ITEM SCREEN

The Item Screen has three separate menus: Matter Wave Screen, Sub-Card Screen, and Key Item Screen. Press the **+Control Pad** to switch between screens.

- ☐ **MATTER WAVES**—Matter Waves are a new technology that turns EM waves into actual physical manifestations. Geo will find them useful on his adventures, and he can Materialize the Matter Waves at certain spots on the Field Screen.
- ☐ **SUB-CARDS**—Sub-Cards contain cards that restore Mega Man's HP and have other various effects when used.
- ☐ **KEY ITEM SCREEN**—The Key Item Screen shows all the items you've pick up during the game, such as your Star Carrier and Visualizer. You can also change your Personal View's wallpaper here.

MAIL SCREEN

The Mail Screen has three separate menus: Compose Screen, Mail Box Screen, and Bro Mail Screen. Use the **+Control Pad** to switch between screens.

- ☐ **TO:**—Person receiving the mail.
- ☐ **PRESENT**—Send a Battle Card with the mail!
- ☐ **SUBJECT**—Edit the Subject line.
- ☐ **BODY**—Edit text in the mail.

- ☐ **SEND**—After filling in the subject and body and choosing a recipient, you can send the mail. The mail will be sent when you update your data. Press **SELECT** to rewrite the entire mail.

ABILITIES

Mega Man can buy abilities with his Link Power. The higher your Link Power, the more abilities you'll be able to equip. To equip an ability, select **EQUIP ABILITIES** from the Omega-Xis Screen.

RULES FOR EQUIPPING ABILITIES

- ☐ When you get an ability, it will be displayed in the list on the left. The amount of Link Power required to equip it will also be displayed.
- ☐ To equip an ability, highlight it and press the **A Button**. The ability appears in the Abilities Equipped list on the right. The corresponding points are subtracted from your total remaining Link Power. These points will be returned when you unequip the ability. If an ability is worth more than your remaining points, you will not be able to equip it.
- ☐ Press the **Y Button** for an explanation of each ability.
- ☐ Press **SELECT** to unequip all your abilities.

 3. Touch *ZERKER X NINJA* or *ZERKER X SAURIAN*.
- ❑ See pages 31-33 for further instructions.

WIRELESS CONNECTION

Using the local wireless connection, you and your friends can choose **BATTLE, BROTHER REQUEST, CARD TRADE** or **DATA UPDATE**.

HOST SELECTION SCREEN

Using the local wireless connection, one person's system is the Host, and the other systems are the Clients. Decide with your friends who will be the Host.

- ❑ **HOST**—The Host sends out signals to the Client systems.
- ❑ **CLIENT**—Clients connect to the Host system.
- ❑ **ENTER NUMBER**—Enter a number to find other people who have chosen the same number. This makes it easier for you and your friends to find each other when numerous Hosts and Clients are in your area.

BATTLE OPTIONS

After choosing **BATTLE**, you can choose from these options.

- ❑ **1 RD/3 RD PRAC MATCH**—Choose 1 or 3 rounds. The Host determines the amount of turns each player gets before the battle begins. Practice matches do not count toward your record, and you cannot wager Battle Cards on them.
- ❑ **1 RD/3 RD MATCH**—You can wager Battle Cards on these matches, and the results count toward your record.

You can use Brother Request after the first match.

LEGEND CARDS

When you turn **LEGEND CARD ON**, a Legend Card will be in your folder when you battle.

When you choose **BROTHER REQUEST**, the **1 RD PRAC MATCH** and **LEGEND CARD OFF** options will automatically be selected.

You can register someone as your Brother only after the battle is over. Once a Brother is registered, you will get a Legend Card for the Best Combo your Brother has equipped.

- ❑ Players who power up Mega Man with a Wave Command Card have a Star Mark next to their cursor.
- ❑ Using the wireless connection resets the Attack Star you had taken out.

TRADE

Trade Standard Cards, Mega Class Cards, Star Cards and Legend Cards with your friends via the wireless connection. There are some cards you will not be able to trade.

DATA UPDATE

You can have up to 7 systems (1 Host and 6 Clients) connected and updating data simultaneously. The following things can happen as a result of updating data.

- ❑ As the game progresses, your Link Power increases.
- ❑ Everyone's unsent mail is sent.
- ❑ You find out new things about your Brothers.
- ❑ You receive a Legend Card for the Best Combo your Brother has equipped.
- ❑ You share the names of Battle Cards not in your library.
- ❑ The record times are updated.
- ❑ Profiles and messages are exchanged.
- ❑ Changes in My Pages are reflected.

You can save mail you receive by following the instructions on-screen. Make sure you set the time and date on your Nintendo DS system.

NINTENDO WI-FI CONNECTION

You can use **BATTLE**, **BROTHER REQUEST** and **DATA UPDATE** with friends who are far away (but still in the country) by connecting to Nintendo Wi-Fi Connection.

BATTLE OTHERS ON THE NETWORK

Via Nintendo Wi-Fi Connection, you can battle against others who are connected to the network at the same time. The result of each battle is displayed on the Wi-Fi Records.

- Remember, it's not polite to turn the power **OFF** in the middle of a battle.

BATTLE BROTHERS ON THE NETWORK

Via Nintendo Wi-Fi Connection, you can battle against your Brothers who are connected to the network at the same time. When Brothers are connected to the Wi-Fi network, the words **ON AIR** appear below their avatars. Select a Brother, and then request a battle. The result of each battle is displayed on the Wi-Fi Records.

ATTACK STAR TAKE OUT

After a Wi-Fi battle, you return to the Star Carrier's Menu Screen. You receive an Attack Star for each battle you win (up to 6). Attack Stars increase the Attack Power of all Star Cards and Standard Class Cards. (Your Attack Stars disappear when you return to the Sky-Hi Coliseum, Title Screen or network, even if you save your game).

FRIEND CODE

Friend Code lets you become Brothers with remote friends via Nintendo Wi-Fi Connection.

- When you connect to Nintendo Wi-Fi Connection for the first time, you will get a Friend Code. Select **FRIEND CODE INVITE** to enter the BrotherBand Screen. Select your avatar to display the code for you and your friend. If you don't have a Friend Code, you will be asked if you want to use Nintendo Wi-Fi Connection.
- Tell your friends your Friend Code so you can find them when you connect.
 - Share your Friend Code only with people you trust. Never post a Friend Code on the Internet or tell it to someone you don't know. If you do, you might receive unwanted data or messages. Don't share your Friend Code with strangers!
- Select **FRIEND CODE INVITE** to go to the BrotherBand Screen, and then select the slot you want to save to. When you connect to Nintendo Wi-Fi Connection, your Brother will be registered.
- If your friend isn't ready yet, wait some time before reconnecting to Nintendo Wi-Fi Connection. When you select **FRIEND CODE INVITE**, the word **READY** is displayed on the BrotherBand Screen. Once that happens, you can reconnect.

Exchange Friend Codes by mail or on the phone.

DATA UPDATE

Nintendo Wi-Fi Connection allows you to update your data with remote friends.

NINTENDO WI-FI CONNECTION SETTINGS

For more information about Nintendo Wi-Fi Connection, see page 43.

SKY-HI COLISEUM

Use the Sky-Hi Coliseum with 2 to 7 friends via the wireless connection. Show your friends how powerful you are by letting loose on them in battle!

USING THE SKY-HI COLISEUM

Once you get far enough in the game, you can talk to Legend Master Shin on the third floor of the Shopping Plaza. He is holding Sky-Hi Coliseum events. If you invite friends to your Coliseum, you will be the Host; if you go to your friends' Coliseums, you will be the Client.

- ❑ Follow the EM waves coming from the antennae on top of IFL Tower to get to the Sky-Hi Coliseum. Then follow Mr. Hertz's instructions.
- ❑ The Sky-Hi Coliseum can only be used with the wireless connection. It cannot be accessed with Nintendo Wi-Fi Connection.

ATTACK STAR TAKE OUT

When you finish battling in the Sky-Hi Coliseum, you receive an Attack Star for every battle you won (up to 6). (Your Attack Stars disappear when you return to the Sky-Hi Coliseum, Title Screen or network, even if you save your game).

SKY-HI COLISEUM RULES

Race to get the most Stars in a 3-minute period. The person with the most Stars wins!

- ❑ **STARS**—All players start off with 3 Stars. Pick up all the Stars you see on the ground!
- ❑ **BATTLE**—Once everyone is connected, the Sky-Hi Coliseum battle can begin. (If you stay on the Custom Screen for more than 10 seconds, the battle begins automatically.) Battles are timed, and end after one turn. Deliver as much damage to your rivals as you can within the time limit. There's no time to think long and hard about what you want to do!
- ❑ **WINNING**—The player who deals the most damage wins. If you beat a rival in battle, you get half that person's Stars. Deleting your rival nets you all their Stars. If you get deleted, you can start again with all your HP.
- ❑ **FOLDERS**—At the beginning of the battle, all players have 12 Battle Cards in their folders. Finding dropped folders adds 6 cards to your folder. Each folder has an element; the last folder you pick up will be your element. Remember: you receive twice the usual damage from the element that is your weakness. If you have Light Sword, Wind Star or Dino Rock, your element will not change.
- ❑ **STAR BOMB**—When you get a Star, your speed increases. While this is a good thing, sometimes Stars turn into Star Bombs. A Star Bomb explodes after 30 seconds, and you lose all your Stars! Attach a bomb to your rival during battle!

GAME HINTS

TALK WITH OMEGA-XIS!

Are you stuck? If you're not sure what to do or where to go, press the **L Button** to talk with Omega-Xis. He may have a useful hint for you.

HELP OUT A MR. HERTZ!

In the middle of battle, you might encounter a Mr. Hertz entangled with an EM virus. Because the Mr. Hertzes are weak, you have to delete the viruses without hurting them. If you're successful, the grateful Mr. Hertz will give you a present!

LEND A HELPING HAND!

There are lots of people around the world. You can access information about them through their Star Carriers, but only when you're in Wave Change form. Find out what worries, fears, hopes and dreams they all have, and help them out!

CHECK OUT EVERYTHING!

Omega-Xis may ask you questions about the things you check out. Giving him honest answers will help you in your conversations with the people in town. The things you write down will appear in the story of the game, so don't write anything that might scare people away.

ELEMENTS

Battle Cards, Viruses, and even Mega Man belong to one of the five elements in the game: Fire, Aqua, Elec, Wood, and None. Mega Man's default element is None, but when he takes on the powers of one of the tribes, he gains an element. Some elements are more effective against others, and deliver twice the normal damage in those cases. Experiment with different combinations and bring out the full power of each Battle Card!

- ❑ A **Fire Element** attack on an enemy standing on a grass panel delivers double damage!
- ❑ An **Aqua Element** attack on an enemy on an ice panel freezes it!
- ❑ An **Elec Element** attack deals twice the damage to an enemy in a bubble!

When Mega Man reverts to normal mode, he can no longer be hit with double damage.

CIPHER MAIL

Send a Cipher Mail by choosing Legend Master Shin as the recipient. Your mail will automatically be sent to CIPHER, so write a secret message in the body of the text. If you write the secret message correctly, you'll get a reply from Legend Master Shin. Look in different places and at various items to find secret messages.

GAME INFO

EM WAVE CHANGE

When Geo and the AM-ian Omega-Xis fuse, that's called EM Wave Change. Harp and I can do it, too!

A human who Wave Changes gets powers and abilities normal people don't have, including the ability to sneak peeks inside people's Star Carriers.

I can only talk about these things with Geo...

BROTHERBAND

The BrotherBand is an interactive data transfer program that helps you solidify friendships. Even if you're separated from your friends by great physical distances, you're still connected by your BrotherBand.

When someone becomes your Brother, you can see that person's Secret. If you write anything rude, you'll have to answer to me!

I love me some cheeseburgers!

You can equip more abilities if you have high Link Power.

Form BrotherBands with others, and as the story progresses and you update data, your Link Power will go up!

LINK POWER

I've done some thorough research on Link Power, and I've added that information to the Zackpedia.

If someone has a high Link Power, then that person is trusted by a lot of people.

And trust isn't the only good thing about having a high Link Power! The higher it is, the more abilities you can equip! This means that having a high Link Power can actually make you stronger.

TOUCH COMMAND SYSTEM

Use Wave Command Cards (sold separately) to get Items, power up Mega-Man, and write on blank Battle Cards! You can find blank Battle Cards throughout the game.

WAVE COMMAND CARD

1. Press **SELECT** on the Omega-Xis Screen or select a blank card from your Card Box to go to the Touch Command System Screen.
2. Place the Wave Command Card to fit on the Touch Screen.
3. Enter the command by touching the holes in the card.
4. You'll hear a sound when you enter the command correctly, and then you'll return to the previous screen.

WIRELESS CONNECTIVITY

During wireless game play, if communication seems to be affected by other electronic devices, move to another location or turn off the interfering device. You may need to reset the power on the Nintendo DS and start the game again.

NINTENDO WI-FI CONNECTION

Nintendo Wi-Fi Connection allows multiple (2-7) owners to play together over the internet—even when separated by long distances.

- ❑ To play Nintendo DS games over the internet, you must first set up Nintendo Wi-Fi Connection on your Nintendo DS system. Please see the separate Nintendo Wi-Fi Connection instruction booklet included with this game for directions on setting up your Nintendo DS.
- ❑ To complete Nintendo Wi-Fi Connection setup, you also need access to a wireless network device (such as a wireless router) and an active broadband or DSL internet account.

- ❑ If you do not have a wireless network device installed, you can order a Nintendo Wi-Fi USB Connector (sold separately) directly from Nintendo. See the separate Nintendo Wi-Fi Connection instruction booklet for more information.

- ❑ Nintendo Wi-Fi Connection game play uses more battery power than other game play. You may prefer to use the AC Adapter to prevent running out of power when using Nintendo Wi-Fi Connection.

- ❑ You can also play Nintendo Wi-Fi Connection compatible games at selected internet hotspots without additional setup.

- ❑ The Terms of Use Agreement which governs Nintendo Wi-Fi Connection game play is available in the Nintendo Wi-Fi Connection instruction booklet or online at www.nintendowifi.com/terms.
